Titusville Morning Herald.

FOR GOVERNOR, MAJ. GEN. JOHN W. GEARY, OF CUMBERLAND COUNTY.

The Raid on Dogs.

From the New York World.

The proclamation Mayor Hoffman recently issued, directing the muzzling of all dogs running at large under penalty of death (to the canines), began to take effect yesterday, and will operate until formally rescinded by the same authority, which may be expected to occur in the latter part of September.

Every dog found without being securely muzzled is liable to be taken up by anybody who pleases, and is made the special duty of the police to capture all such vagrants. When the unfortunates have been stormed down run down, or seduced by affected petting into capture, they are taken to the general dog pound, at the junction of East River and Twenty fifth street, where is room for a large number of their victims; and a large transit conveyance drawn which they are tied in leashes. If not ransomed by the owners, or whomever pleases by 7 p. m., by the payment of $3 per dog, they are at once put into the

LARGE DROWNING TANK

a rectangular affair of wood, twelve feet long, eight feet wide, and some five and a half feet in depth. Pais, when full of dogs, of which it will hold some two hundred in all, is covered overtop with strong broad laths, and canine escape is rendered a thing impossible. In the tank they present a motley appearance. In the mammoth canine coffin, as Goldsmith said was the case at Islington,

"—many dogs there be,
Both mongrel, puppy, whelp and hound
And curs of low degree."

The patient beasts tied up short all day under the torrid pouring sun, show more neighborliness than would the unhatbered biped, man, under the same straits. They don't delight to bark and bite, though Dr. Watts asserts that it is their nature to, but peacefully wait for their ransom or their doom with a silence which hunger and thirst can alone interrupt. These cries naturally occur late in the afternoon when food and drink are most missed, and then arises a miscreen of howls that make day more than hideous. Between 7 and 8 p. m., however, the pangs of the poor brutes are removed, and they are given so much water in the tank that they never thirst thereafter. A light liver of water in the tank invites the first, second and perhaps the third leash of dogs to enter which they do tumultuously until piled more nearly to unity than throats. But the tot dun list. The remaining dogs see that their companions went in but they don't come out. The situation sents of danger the dogs are told and whistled to go but thinking the tank must be much crowded, the dogs can think. Their eyes and resistance is much as say "They lie jammed if they do." Pulled in before in kicked in tossed in pitched in an indiscriminate number of yells howls shouts yelps and barks ensue—a regular dog pandemonium. The middle sized dogs are thrown in just as they come the whelps are made to fill up the chinks between the biggest whelps while the biggest are put in last to weight the others down. Then the full faucets stream in the injurious water and soon silence the continuous agony of yelps with which the poor beasts inflict the death. Yesterday was the first day of the dog raids and about fourhundred were captured. Up to 11 p. m. fifty five had already been ransomed, and more probably were during the day. The specimens yesterday were very poor as a general thing although several pretty little Prince Charles spaniels and a magnificent Newfoundland dog were redeemed during the day.

About a thousand dogs generally come in the first week and every succeeding one until after the Fourth of July when the number moderates to an average of eighteen or twenty per day. As 50c are paid for the bringing in of every dog, quite a revenue accrues to somebody. Some are bought of boys as it is supposed the young sters would steal too many. But is regular dog brokers, in the shape of seedy men of both colors bring in all the pound not redeemed with the boys for all the dogs they can rake up, at from 25c to 40c. Head the boys still reap a rich harvest of pennies. The Pound Superintendent says that just prior to the Fourth of July the dogs come in very thick for the precocious little gutter snipes wish thereby to accumulate pocket money against the holiday. One Robert Livingston a dog broker, yesterday brought in one hundred dogs in one lot for which he received $50 down. They had accumulated somewhere and presumptively had all been captured that morning, though different hints were indulged. A description of the

DOG CATCHING BUSINESS

shows that there are three methods of canine capture in vogue. First, the street gamins, these scapiess nondescripts just run the animal down. It is a simple operation and only requires wind and noise. No sooner is the cur seen than with a "hi sic hi sic" the ragged urchins run full tilt in pursuit. Often the animal is astounded by the outcry and clutched before he can make off. Oftener he dodges between boxes and barrels for a short space and becoming hard pressed, "scruggels" up the street at his utmost. But the little brats can outrun any small dog and each with a club or stone shrieking "I've got a" There goes Hit him Ky yi!" soon catch the victim and lug him off.

Another way is to quietly coax yourself up to a dog and then club him. That requires no description. All needed is a brute of a man, a piece of meat and a big stick. The strategic method is more refined, and obtains among the professionals. The caterer goes out willing with a trained female beauty of a dog whose acquaintance all the gallant pups he comes across seek to cultivate. Their sociability costs them their lives for they are bagged off to the pound instanter. In this way swarms are caught.

The advisability of keeping valued dogs in the back yards, even if muzzled all owners will see for the pecuniary instincts of the gamins and brokers may be such as to lead them to get the coveted half dollar by the small effort of unbuckling the muzzle and cribbing the canine.

Personal Sketch of Tennyson.

A writer signing himself "Harry Harewood" Leach, sends to the Homewood Journal a letter about Tennyson, from which we make the following extract:

He, (Tennyson) is perhaps, five feet nine inches in height, but he stoops much as he walks, and thus looks shorter. He does not seem to be above fifty years, yet his gait is feeble and the wearing of glasses adds to the impression of his being older. His dress is extremely old fashioned—indeed he looked more like an old picture stepping out of a frame than a gentleman of the nineteenth century. His coat, short in the waist, was of a sort of husky woolsey material, of a gray mixed color, and fitted him very tight, vest and trousers of the same material. Around his ample shirt collar a black cravat was loosely tied. But nothing could detract from the power of his massive forehead high and broad, and nothing could be more picturesque than the long black hair fine as silk (but plentifully mixed with gray) which fell over his fine head down even to his shoulders. His eyes are dark gray. I think and have the peculiar appearance about the lids common to all students, and especially night readers, which is very clearly perceived and defined by photographs of the poet. His mouth is constantly smiling, but his eyes seem to be absent while he is speaking, searching everywhere for something that is not present—that strange speculative look that is not easy to convey by description, and must be comprehended rather than clearly defined. His voice is rich and sonorous, but he chooses his words slowly, and, I should think by this betrays that in his composition, he is equally careful and slow. A sort of dreamy, ruminating voice, that has spoken, yet is far beyond the voice in thought.

The English Bar.

British lawyers are divided into several classes—the attorney, who is called solicitor, when engaged in proceedings in equity, and proctor in the ecclesiastical and prerogative and probate courts, the barrister, who is called advocate, in Scotland, and the special pleader. It is necessary that a man should serve five years' apprenticeship to a duly qualified master, and pay six hundred dollars stamp duty on the indenture of "articles" under which he passes into and through such servitude, and finally pass a severe examination before he can become an attorney. He must have his name entered for three years at an Inns of Court, in London or Dublin, and keep his "terms" for three years before he can be admitted as a barrister, or licensed as a special pleader.

A Scottish advocate, or an Irish barrister, how ever eminent, cannot plead in any English Court, the House of Lords excepted, which is the National Court of final appeal. When Brougham, after a few years' trial, found his progress at the Scottish bar was likely to be slow, he became an English barrister, but had to wait the usual time, as a nominal student at Lincoln's Inn, before he was called to the English bar. Mr. Whiteside or Mr. Isaac Butt, now leaders of the Irish bar, cannot hold a brief in England, without being "called" to the English bar, after a wait of two years as "student-at-law," and even then must pay six hundred dollars as stamp duty, upon the certificates of his admission, though he had previously paid the same sum when admitted to the Irish bar.

—More than ten thousand shops, it is said, are open for business in London on Sundays.

Gradatim.

By G. Holland.

Heaven is not reached at a single bound,
But we build the ladder by which we rise
From the lowly earth to the vaulted skies
And we mount to its summit round by round.

I count this thing to be grandly true
That a noble deed is a step toward God,
Lifting the soul from the common sod
To a purer air and broader view.

We rise by things that are under foot
By what we have mastered of good and gain
By the pride deposed and passion slain,
And the vanquished ill, that we hourly meet.

We hope, we aspire, we resolve, we trust,
When the morning calls us to life and light,
But our hearts grow weary, and ere the night
Our lives are trailing in the sordid dust.

We hope, we resolve, we aspire, we pray,
And we think that we mount the air on wings,
Beyond the recall of material things,
While our feet still cling to the heavy clay.

Wings for the angels, but feet for the men!
We may borrow the wings to find the way—
We may hope, and resolve, and aspire, and pray,
But our feet must rise, or we fall again.

Only in dreams is a ladder thrown
From the weary earth to the sapphire walls
But the dreams depart and the vision falls,
And the sleeper awakes on his pillow of stone.

Heaven is not reached at a single bound;
But we build the ladder by which we rise
From the lowly earth to the vaulted skies
And we mount to its summit round by round.

Ideas About Women.

A French book, recently published at Brussels, contains, among other interesting matters, a collection of aphorisms about women, taken from the writings of various authors. We copy a few of them:

Chamfort—In the choice of a lover, women consider more how he appears in the eyes of other women than in her own. Love is more pleasing than matrimony, just as romance is more pleasing than history.

Bonguest—If we speak ill of the sex generally they will rise against us; but if we do the same of any individual woman, they will agree with us.

Charles Lemele—Most of their faults women owe to us, while we are indebted to them for most of our better qualities.

Daniel Sterne—Most of women are endowed with such naturally endearing charms that even their very presence is generally beneficial.

Madame De Stael—Love in a woman's life is a history; in a man's an episode.

Diderot—There exists among women a secret tie like that among priests of the same faith—They hate each other, yet they protect each other's interests.

Stahl—No woman, yet the most intellectual, believes herself decidedly homely. The self deception is natural, for there are some most charming women without a particle of beauty.

Octave Feuillet—Providence has so ordained it that only two women have a true interest in the happiness of man—his own mother and the mother of his children. Besides these two, between the two creatures except painful and idle delusion.

Alphonse Karr—Say of woman that she is wicked or stupid, frivolous but add that she is beautiful and be assured that she will ever think kindly of you. Say that she is kind virtuous sensible but very homely and she will never forget you in her life.

Madame De Maintenon—In everything that woman writes there will be thousands of faults against grammar but also to a certainty always a thoughtful not to be found in the letters of man.

J. J. Rousseau—Man can better philosophize on the human heart but women can read it better.

Dick Turner.

Dick Turner the cruel turnkey of Libby prison has been set at liberty within a day or two—His offence has been deemed so rank heretofore that he was kept in close confinement within the very walls where he caused so much suffering to the unfortunate Union soldiers under his charge. And so strict was the Government in the care that was taken of him that a strong cell was constructed especially for his reception, and to obviate the possibility of escape, a sentry was kept constantly on duty outside the cell door, and the instrument itself was visited by an officer once in every hour of the day and night. But these arrangements were made at a time when treason was considered a crime that should be made odious. Jeff Davis seems to be almost the only unpardoned prominent rebel now, and unless all signs fail his pardon is not far distant—About the only people for whom there seems to be no hope of pardon are the consistent Union men of the country who, having stood by the Government through the great struggle, are not willing to see all the fruits of the great victory of Right over Wrong turned to ashes in the moment of their fruition. This is the unpardonable sin.

All Sorts.

—What the Spaniards found in Callao—that Peruvian bite is quite as efficacious as Peruvian bark.

—There are but two paupers in the Gibson county (Ind.) poor asylum one an idiot the other a child, and not a prisoner in the county jail.

—A tow boat called the Market Boy was blown to pieces by a torpedo that passed up the White River recently.

—The census of Huntsville Alabama, has been completed. It shows the total population of that place to be 2,273 whites, and 2,248 blacks.

—A Frenchman named La Foret has been arrested at New Albany, Ind., for the murder of a soldier, who was found beaten to death in a swamp not long since.

—A brute named Michael Fant turned his wife out of doors in the storm, on Thursday at Indianapolis because she was subject to fits and at times partially deranged.

—Two young girls in Memphis tried to frighten a companion by holding her on the railroad track as a train was approaching. The fright didn't kill her, but the engine did.

—It is said that Englishmen in Canada persistently avoid placing green spectacles on their noses lest it be construed into hoisting "the green above the red."

—Three hundred acres of good land, lying within three miles of Corinth, Miss., were sold a few days since at auction, being a trustee's sale, for thirty five cents an acre.

—A negro boy in New Haven, Conn., quarrelled with some men and boys lately, and finally threw a brick which hit a man on the head—Then he ran away—the same night he was mortally wounded while at work in his employer's barn. It would seem that some one assaulted him, when he drew his knife which was wrenched from, and turned against, him.

—One Charles S. Dunlap got himself into jail, the other day, at Zanesville, Ohio for going through the country and poisoning the mouths of horses, and then suddenly appearing as a "horse doctor," and offering to cure them for "so much." He ought to be made to take a bit in his own mouth.

—In Toledo, two colored scavengers, while engaged in cleaning out the tube which connect the sewer with the privy vault of the American House, were suffocated by the poisonous gas which escaped through the tubing. One recovered, but the other expired soon after he was taken out.

—Judge Samuel Hanna, well known throughout the West as one of the most sagacious and enterprising business men of the county, died at his residence in Fort Wayne on Monday last. He was the originator of the most important railroad and canal enterprises of Indiana, and was immensely wealthy.

—A close student of Burke on the Sublime and Beautiful writes from Paris that "Napoleon is evidently determined that no labor or expense shall be spared to make the Great Exposition the grandest of all modern sensations, and a sort of culminating triumph of his reign."

—A young man named Scott Dudley, while riding in a freight car on one of the Western roads, a few days since, put his head out of the door and was knocked out instantly. The entire train passed over him, tearing him to shreds. His heart was found four hundred yards from his body, one leg one hundred yards off, and the other could not be found at all.

—There is a positive mania for the autographic of Governor Moore, of Louisiana.—Among other requests was one from a young lady, who enclosed in her letter a small octagonal piece of silk, which she desired the Governor to write his name upon, as she was getting up an "autographic quilt."

—There were 7,960 deaths, and 4,469 marriages, and 10,208 births in Connecticut during the past year, leaving the population of the State 2,752 greater than in 1864. A negro woman in Stratford, one hundred and seven years old, was the oldest person who died. Four hundred and four divorces were granted during the year.

—The Committee in New York city having in charge the erection of the Lincoln monument on Union Square (or elsewhere), have received two designs, one from Richard S. Greenough, and another from Thomas Ball, both of Boston. One of them "representing Mr. Lincoln in a standing posture," is much admired.

EXTENSIVE FIRE AT ST. JOSEPH, MO.

WESTERN UNITARIAN CONFERENCE.

LOUISVILLE, Ky., June 21.

The case of Benjamin Sale, of Harper's guerrilla band, has been continued until the next term of the Court. Bail was given in $1,500.

Nothing has been heard of Harper since he released Franklin and Pavilion from Bowling Green on the 13th. The gang are supposed to be in the vicinity of Huntsville, Tenn.

Ball's case for shooting Owens has not been called up. Owens is recovering rapidly.

BOWLING GREEN, Ky., June 21.

It is apprehended that the negroes will attempt the rescue of a negro sentenced to be hung on the 13th of July at Franklin. Precautionary measures have been taken by the citizens to prevent such a result.

NEW ORLEANS, June 21.

Generals Sheridan, Gregory, Kidder and other Federal officers have arrived from the Rio Grande and Texas. They represent all quiet on the American side of the river.

It has been discovered that in the heart of the city there is a house where shells had been stored, which had been bought of the United States forces, and the powder extracted in a careless manner. Large quantities of the powder were seized, and narrowly escaped explosion.

A Vera Cruz correspondent, writing under date of the 5th, states that the yellow fever is raging in that city fearfully and fatally.

The last steamer from Europe brought out 800 troops for Maximilian.

The Liberals have released 28 Confederates captured near Cordova.

All work on the Imperial Railroad to the City of Mexico has been discontinued for want of funds and from the aggressions of the Liberals.

The Imperialists have lost and abandoned most of their important cities in the interior and the general opinion is that the Empire will not last long.

Maximilian is in great financial distress.

The Americans on the Corodrio settlement are disheartened and are preparing to return to the United States.

Tampico is surrounded and closely invested by a strong force of Liberals.

The Liberals are very active in the neighborhood of Matamoras.

NEW YORK, June 23.

The morning papers contain the following special dispatches from Washington:

The President will place no obstacle in the transmission of the constitutional amendment just passed by Congress to the Governors of the several States. He will probably respond to the Congressional resolution requesting him to do so by disclaiming all agreement or acquiescence in its provisions.

The Ways and Means Committee are holding daily sessions and hope to complete the Tariff bill by Saturday. They are said to have agreed on recommending an increase of 50 per cent in the duty on imported cigars, wines and liquors, and will probably add eleven and a half cents per pound to the present tax on imported wool, and an equal increase on all imported woolen fabrics would, in this case, be also necessary.

The question of giving sixty or ninety days' notice for the proposed Tariff bill is provoking discussion. The general tariff of 1843 went into execution from and after the day of its passage. All special tariff bills, except that of July, 1862, also went into immediate operation, but though some of them were general in their character, and that of April, 1864, was entirely so—since the commencement of the war all provisions affecting our importations have taken effect from the day of their passage, excepting that of July, 1862, of which a very short notice was given.

The Schenck Army bill, which passed the House to-day by a vote of 72 to 41, will undoubtedly be killed in the Senate. Many of its provisions were hastily passed over on this supposition, and the indifference manifested to its fate in the House is supposed to have arisen in a knowledge of the forthcoming action of the Senate.

Mr. Washburne, from the Congressional Committee to investigate the Memphis riots, in private conversation reports that a deplorably bad condition of things exists in Memphis. The temper and feeling of the people is as bad, if not worse, than at any previous period since the outbreak of the rebellion. He believes that nothing but strong military government will preserve the peace in that district for years to come.

The Committee examined one hundred and seventy witnesses, whose testimony will probably cover 2,000 pages of manuscript. The Committee hope to report within a fortnight.

The Committee on Claims to-day reported a case which establishes a precedent in certain respects for the reissue of lost coupons and bills. It appears that a gentleman of Maine lost a $500 bond, but subsequently recovered it in a mutilated and damaged condition, together with thirteen of the coupons. He asks Congress to authorize the Secretary to reissue the bond and coupons. The Committee recommended that on the surrender of the mutilated bond a new one be issued without coupons, that the thirteen coupons attached to the old bond be held valid, and they cannot authorize the reissue of the coupons supposed to be lost, for there is no evidence but that they may still be in existence. The last point settles a great many applications for the reissue of lost coupon bonds where the applicants cannot give satisfactory proof of their total destruction. The House agreed to the above report.

The President sent to the Senate for confirmation the following nominations of postmasters in Hon. Roscoe Conkling's district of New York: Chas. R. Hopkins, Utica; D. Ward Shelly, Rome, and Morris S. Wood, Clinton. No other nominations were made.

The Conkling-Fry investigating committee have closed the evidence and Mr. Shellabarger, the Chairman, is engaged in writing the report. There has been a good deal of important information elicited in regard to the manner in which Fry carried on the Provost Marshal's office, and also in reference to the bounty jumping business generally. Most of the evidence will be very damaging to the head of that Bureau. It is understood the report will be severe on Fry.

ST. JOSEPH, MO., June 21.

A fire occurred on Market Square at three o'clock this morning destroying property valued about $300,000—insured about $175,000 in New York, Hartford and New Haven offices. The principal losers are Wyeth & Co., $110,000; Floyd & Co., $25,000; Kohn & Co., $40,000; Fred Brearman, $28,000; John Corby, $80,000; Schloss & Co., $20,000. The fire was the work of an incendiary.

BUFFALO, June 22.

Rev. R. L. Collier, of Chicago, preached last evening before the Unitarian Conference.

At the meeting yesterday, Rev. Mr. Stahlee, from the Committee on Missionary Work, made a lengthy report. At the conclusion, Mr. Lowe, Secretary of the American Unitarian Association, made some remarks, followed by Mr. Mayo and others.

To-night there will be a collation given to the Conference at St. James' Hall.

FINANCIAL AND COMMERCIAL

FINANCIAL.

[BY TELEGRAPH.]

NEW YORK, June 22.

The Post's money article says: "The only thing worthy of notice in the Stock market is the suspense which seems to have involved all departments of business. This is attributed to the unsettled condition of European affairs and the prevailing desire to await further news, which some say will be better than the last, while others are less sanguine. The Loan market is easy at 4@5 per cent. on call. Commercial Paper is quiet at 5½@7. The Stock market is steady, but offering no features of special interest. After the Board Erie sold for 60c. before the first regular session N. Y. C. was quoted at 99, Erie at 58¾, and Pittsburg and Fort Wayne at 98½.

PETROLEUM MARKETS.

TITUSVILLE, June 22.

The Petroleum markets have experienced a still further decline to-day.

Oil at the wells was not so firm as yesterday, but the opinions of buyers and sellers are still very far apart. We heard of but one sale to-day at $3.65.

There is absolutely a dearth of oil news, from the fact that little or nothing is doing. The unsettled condition of affairs makes buyers very shy of the market, and sellers, who are constantly looking for a rise, hold their oil at correspondingly high figures.

The following is our weekly report from New York. Referring to the annexed report of our petroleum market, for the week ending this day, I would remark:

The certainty of a foreign war has fully offset the advance in gold, and prices are barely maintained for refined, while crude has advanced an 1 is firm.

Refined, in bond, for present delivery	35@42c
Refined, free, for present delivery	55@60c
Crude " "	26@27c
Receipts for the week at New York	22,755 bbls.
Do since Jan 1st	421,591 "
Exports for the week from New York	4,527 "
Do since January 1st	300,410 "
Total exports from the U S since Jan. 1, '66	569 935 "
" " " " same time in '65	110,456 "

Yours, very truly, J. A. BOSWICK.

The receipts and shipments by wagon, pipe and railroad on Thursday were as follows:

	Receipts.	Shipments
Crude, bbls	633	1160

The following are our quotations to day

PETROLEUM.

Crude at Funkville	$3 50@3 75
Crude at Petroleum Center and Benehoff Run	3 50@3 75
Crude at Pithole	3 50@4 00
Crude at Shaffer	4 00@4 25
Crude at Hiatt, near Titusville	4 75@5 00
Crude at Titusville	5 25@5 50

Refined in Bond, " "	
Refined Free, " "	
Empty Barrels	3 00@3 25
Teaming from Petroleum Centre and Benehoff to Titusville	1 00
Teaming from Petroleum Center and Benehoff to Shaffer	60c
Teaming from Pithole to Titusville	1 00

PITTSBURGH OIL MARKET.

[BY TELEGRAPH.]

[Special to the Morning Herald.]

PITTSBURGH, June 22.

Crude—The market this forenoon was quiet, and the indications were at noon that the day would pass by as inactive as its predecessor. The quotations were unchanged, the medium gravities being held at 13½c, barrels returned, and 18½c barrels included. Heavy oil could not be obtained under 13½c. A sale of 500 barrels of this quality was made at 13½c. Holders were not willing to take less than the figures given above.

The arrival of the next steamer from Europe is awaited with anxiety by operators. Its news will put a new phase on the market.

Since our last report sales have been made at 35c for immediate delivery in Philadelphia, 42@42½c for August, 43@43½c for September, and 45c for October. Refined oil without demand and prices nominal.

NEW YORK OIL MARKET.

[BY TELEGRAPH.]

NEW YORK, June 22.

Petroleum, dull; crude, 25½c; and refined in bond 40@41c.

DROP in at E. S. Fowler & Co.'s, No. 2 Fletcher's block, if you are going away, and purchase your railroad tickets over any route, and avoid the trouble and danger of buying a ticket at the depot.

Travellers by railroad can have their baggage checked to prominent points by showing their tickets, purchased at this office, to the depot baggage master, same as tickets purchased at the depot office. E. S. FOWLER & CO.

PRIZE CONCERT.

GRAND

BALLOON ASCENSION

IN TITUSVILLE

ON THE

Fourth of July, 1866,

In Prof. LOWE'S Celebrated Balloon

"WASHINGTON."

Of New York City, for the Benefit of Crittenden's Grand

PRIZE CONCERT!

This Balloon is the same used by Prof. Lowe during the Rebellion, in making observations for the Union Generals, and is the Largest Balloon in the world, being Forty feet in diameter and One Hundred feet in height when inflated. Besides the above we are to have an

OLD FASHIONED FOURTH OF JULY CELEBRATION,

And the greatest display of

FIREWORKS

Ever made in Northwest in Pennsylvania. There will also be a

TROTTING MATCH

For Five Hundred Dollars a side, on the Titusville Driving Park. Also a

MATCH GAME OF BASE BALL

On the Union Base Ball Grounds

SAM RYAN'S GRAND

DRAMATIC COMBINATION

From New York, will perform in Corinthian Hall in the evening.

BURLESQUE FANTASTIC PARADE AND REVIEW

In the morning. A Grand

FIREMEN'S TORCH-LIGHT PROCESSION

In the evening, and also

FIREMEN'S HOP

At Crittenden Hall. The programme will be opened with the firing of a

NATIONAL SALUTE

At sunrise, to be repeated at sundown. Altogether, this will form the most

ATTRACTIVE AND EXPENSIVE

Celebration ever held west of New York City, the expenses attending it reaching nearly

TEN THOUSAND DOLLARS

THE

PRIZE DISTRIBUTIONS

To Ticket Holders amount to

FORTY THOUSAND SEVEN HUNDRED DOLLARS,

The chief prize being a

HOUSE AND LOT AND STORE,

Valued at

SIXTEEN THOUSAND DOLLARS.

Every Ticket Registered, and

EVERY OTHER TICKET SURE TO DRAW A PRIZE.

Prizes to be drawn on the plan of the Military Draft, D. V. Derickson, of Meadville, having kindly offered the use of the draft wheel which was used in the 20th District.

For further particulars see Prize Schedule.

We are permitted to use the following names as references: F. W. Amos, J. T. Chase, J. T. Ridge, E. D. Fletcher, C. C. Dodbold, W. W. Kingsland.

E. H. CRITTENDEN, Proprietor.

SOUND PINE LUMBER

from $18 to $2 per thousand, and Culls from $12 to per thousand, delivered in the city, and $2 less per thousand at the mill, one mile from the Post Office. A supply of Lath and Fence Pickets on hand.

Bills sawed to order on short notice. Recollect I am not to be undersold. Please give me a call before purchasing elsewhere. Office on corner of Pine and Washington streets, at the sign of the Church Run Lumber Yard and Ice Depot. HIRAM HILL.

Titusville, Pa., April 30, 1866—dtf

COAL.

COAL for sale in quantities to suit purchasers, at the yard of

EWING & WALKER,

South side of O. C. R. R. Track, at junction of Pine St., (Plank Road) Titusville, Pa.

Orders left at the office of

HEWITT, SCOFIELD & CO.,

Franklin street, will receive prompt attention.

W. R. G. WALKER,
W. R. EWING

NEW COAL YARD AND POPULAR PRICES.

Charles P. Morse & Co., have on hand at their yard, foot of Franklin street, on the Oil Creek R. R., and are daily receiving, large quantities of

ANTHRACITE, BITUMINOUS AND BLACKSMITHS' COAL,

which they will sell by the car load or smaller quantities at as low rates as any yard in this city.

Orders filled promptly and coal delivered to any part of the city. CHAS. P. MORSE & CO.

Titusville, Jan. 22, 1866. jan22

TITUSVILLE, PA.

LARGEST ROOMS IN TOWN.

Photographs, Ambrotypes, Ambrotypes, Melainotypes, Double Positions, (superior) Card Pictures, and all other styles now in the art. Copies from old pictures enlarged to any size, required. A large assortment of Albums, Frames, Stereoscopic Cards, and large pictures of the Oil Regions constantly on hand. Landscape views made to order. Terms reasonable. oct20dly

R. V. PIERCE, M. D.,

TITUSVILLE, PA.

Consultation Rooms in Ralph's Brick Frost Building, opposite the Petroleum Bank Block, where he may be found at any hour, day or night, when not on professional business. In addition to the general practice of medicine, Dr. Pierce devotes particular and careful attention to the medical and surgical treatment of all diseases of the Eye and Ear, to the practice of Obstetrics, Operative and Conservative Surgery, and also, to the treatment of all diseases of the Kidneys, Bladder and other Urinary and Generative Organs of both sexes, and those diseases which are peculiar to Females and Children. These subjects have received a large share of the Doctor's close, careful and diligent attention during a long period of time spent in private practice, hospital and clinical study and practice.

The Primary Election.

The Republican Primary Election, held yesterday, has ceased to be a matter of speculation and controversy, and is to-day a matter of fact. Involving purely personal preferences, it has excited some local prejudices, and we think we but express the general opinion of the community, when we say that we rejoice that it is over.

The results of the canvass are not yet fully reported. We give them this morning so far as ascertained, and confidently believe that our predictions will be fully realized as regards the general results. But whatever may be the decision of the people fairly expressed, all will acquiesce in it as the arbitrament which party usage has declared beyond appeal. If the Pettis combination have won by *a fair and untrammeled ballot*, we shall sustain our defeat with philosophical fortitude. If the candidates whom we have advocated are nominated we shall bear our success with a moderation which shall bespeak that the controversy has been on our part one of principle rather than of passion or interest.

Personalities have largely intermingled in this contest. The issue was necessarily and mainly one as to the relative merits of competing candidates, as both parties profess the same political faith. And while laboring no ill will or resentment toward those who have aspersed our motives, we bespeak from them the same degree of charity and allowance, and a renewal of our former pleasant and fraternal associations.

Celebration of the "Glorious Fourth" in Titusville.

As already announced the Merchants' Association have united with the Common Council in preparations for an "old-fashioned" Fourth of July Celebration in Titusville. The programme of exercises has not yet been fully completed, but we have been afforded a sufficient outline of the preparations to present the general features of the demonstration.

At sunrise a national salute will be fired, accompanied with the ringing of bells and the universal "explosion" of Young America.

At six o'clock a. m. the "Fantastic Bumphisticated Squirzlets" will parade the city on horseback, and conclude with a grand review on the Chase lot between Pine and Spring streets.

At ten o'clock a. m. a civic procession will be organized, including the Fire Department, Merchants' Association, City Authorities, Masonic, Harugari, and other benevolent associations, Soldiers' and Sailors' Club, cavalcade, &c. A prominent feature of the procession will be the Sabbath Schools, and thirty-six little girls, appropriately costumed, representing the several States of the Union. The procession will move through the principal streets to Abbott's and Bates' Grove, where addresses will be delivered in English and German, and the exercises will be varied with vocal and instrumental music. Refreshments will be served on the grounds.

In the afternoon Prof. Lowe will make an ascension at the Driving Park, in his celebrated air-ship "Washington," which was used by him during the Rebellion in making observations for Union Generals. This balloon is the largest in the world, being forty feet in diameter and more than one hundred feet in height, when inflated. Several passengers will be taken up into the clouds as companions of the Professor. This feature of the celebration is contributed by Mr. E. H. Crittenden, at an individual outlay of $1,000. Mr. Crittenden's Prize Drawing is to take place on the Fourth.

There will be a match game of Base Ball on the grounds of the Union Club in the afternoon, and a trotting match at the Driving Park after the ascension.

The evening part of the programme includes a performance in Corinthian Hall by Sam. Ryan's Dramatic Combination from New York, who have been specially engaged by Mr. Crittenden. There will also be a Firemen's Hop in Crittenden Hall, and (it is expected) a torchlight parade. The entire celebration will conclude with the greatest display of Fireworks ever made in Northwest Pennsylvania.

We think the celebration will prove sufficiently attractive to the citizens of neighboring towns to bring large delegations from every quarter. Our hotels can accommodate all who come. Arrangements will be made for special trains on the Oil Creek Railroad, and an invitation is heartily extended to the citizens of Erie, Meadville, Corry, Warren, &c., to come and see us *en masse*. The celebration is designed to be a perfect success. Our citizens are subscribing to it with commendable liberality, and no stranger shall have occasion to question the hospitality of the city of Titusville.

NEW WELLS.—A new well was struck on the Halderman farm, reserve of the McElheny farm, on Tuesday last. It was pumping yesterday about 100 barrels per day. It is owned by Dr. Wm. Foster, Nathaniel Wilkins, James Robinson, and others. The testing of the well commenced about three weeks since, and after casing rapidly increased its production and is constantly improving.

Another well on the adjoining lease, No. 19, was started on Monday last, and is rated at about 30 barrels.

A more distressing accident occurred in Westfield on Monday. A child, about a year old, of Mr. Thatcher, pulled a basin of hot water from the table upon itself, scalding its arms, neck and stomach in a shocking manner. Hopes are entertained that it may recover, though its sufferings are very great.

THE RESULT.

We give all the returns received up to midnight. Mr. Finney's majorities thus far exceed 512, and several of his strongest townships yet to hear from. If these indications can be relied upon Mr. Pettis is worse beaten than we predicted.

Joseph T. Chase's vote will largely exceed that of any candidate running. Glory enough for Titusville!

City of Titusville—Primary Election.

General Returns.

Hayfield gives Finney 122 majority.

Woodcock Township gives Finney 68 majority.

Vernon gives Finney 37 majority.

East Fallowfield gives Pettis five majority.

Meadville and Mead Township gives Pettis 68 majority.

Athens Township gives Peck eighty. Miscellaneous nineteen; J. T. Chase seventy-seven; scattering twenty-one; Pettis thirty-five; Finney seventy-five.

Saegertown gives Finney 41 majority.

Cambridge Township and Borough gives Finney 16 majority; Richmond 25 majority.

Summit gives Pettis 45 majority.

Rome Township gives Pettis 37; Finney 7; E. H. Chase 2. Borough gives Finney 26; Pettis 23; E. H. Chase 38; J. T. Chase 9.

Shocking Accident at Petroleum Centre.

PETROLEUM CENTRE, June 22.

Editors Morning Herald:

A young man named Thomas Babcock was fatally injured at Petroleum Centre this morning at ten o'clock. He was employed by Mr Thomson, well contractor, and was engaged in the operation of driving pipe at a new well on the Wash. McClintock farm. By some unaccountable accident he fell forward in such a manner that the heavy driving ram in falling struck his head, fracturing his scull and otherwise injuring him so severely that he could live but a very few hours after the accident. He was not quite nineteen and belongs at Toronto, C. W.

About noon a torpedo exploded at the shop of Sherill & Co. while in the hands of a workman employed by that firm. The torpedo had been charged with nitro glycerine, and every particle of the oil was supposed to be entirely removed and cleaned out of the torpedo case before it came to the shop of Sherill & Co. Enough of the dangerous compound remained, however, to cause a terrible explosion, which inflicted severe but not fatal injury on several of the by-standers. Several of the jars fully charged with the nitroglycerine had been handled by the workmen of the same establishment, but fortunately the one which exploded had been emptied and so thoroughly cleansed that but a very small quantity remained. Had one of the fully charged torpedoes ignited the whole large block in the midst of which the shop is situated must have been annihilated. OCCASIONAL.

Fire at Oleopolis—3,000 Barrels of Oil Burned.

OLEOPOLIS, PA., June 21.

Editors Morning Herald:

At 1 o'clock this morning a bulk barge, which was receiving its cargo at the wharf of the Pennsylvania Tubing Transportation Company at this place, took fire from a lantern in the hands of the pilot, Charles W. Porterfield.

The fire immediately communicated with four other loaded barges and with the gauge tanks of the Tubing Company, all of which were burned.

There were at the time about one thousand barrels of oil in the tanks and about two thousand in the five barges.

The barges belonged to Thomas C. Bushnell, of Pittsburg, and to Charles W. Owston, of Oil City.

The barges and all the oil burned were fully insured.

The storage tanks of the Tubing Company were uninjured.

Mr. Porterfield, who carried the lantern upon the boat against the protest of the watchman, was seriously though not fatally burned. M.

Production of McElheny Farms.

FUNKVILLE, June 20.

Editors Morning Herald:

Permit me to correct what purports to be a list of the producing wells on McElheny Farms, appearing in your columns yesterday. The Green Mountain and both Champion 1 and 2 are on *this* farm, and Jenkens and Baldekoper are *not* on it. The following is a correct list, taken from the gauger's reports:

	No. bbls.		No. bbls.
Howard	3	Mt. Vernon No. 4	50
McKay	135	Mt. Vernon No. 5	25
Burtis	3	Champion Nos. 1 and 2	170
Briggs	10	Green Mountain	100
Forest City	7	Wilmot	12
Pioneer No. 3	15	Lincoln	10
Mt. Vernon No. 2	6		
Total			526

No. 20, on the reserve of the McElheny Farm, struck yesterday, is producing 100 barrels and improving. No. 19, also struck yesterday, is pumping 40 barrels and improving. *

A VERY POPULAR DRAFT.—The last draft in the 20th District was highly unpopular, but the draft which is to take place in Titusville on the 4th of July will be unobjectionable to all parties interested. In other words Mr. Crittenden has secured the draft wheel used by Capt. Derickson as Provost Marshal, and the tickets for the Grand Prize Concert are to be drawn in the same manner, by a committee selected by appointment from among the ticket holders, and to superintend the proceeding. The tickets will be put into one chamber and the prizes into another. The wheel will then revolve and the drawings will be made in the same manner as by the military draft. This arrangement cannot fail to prove acceptable to all parties interested. It is eminently fair, and meets with the approbation of all who have been consulted. Tickets are selling rapidly, and we are authorized to state that the distribution will take place according to the original announcement, and without postponement from any cause whatever.

THE improvement of Diamond street is progressing very favorably, and its completion will be hailed with universal satisfaction. We hope to see Spring street, between Franklin and Pine streets, next improved in the same manner, and the sooner the work is commenced, the better for the health and appearance of the city. There is an intolerable mass of stagnant and steaming filth in that quarter, which is very inviting to pestilence and all the ills that flesh is heir to.

CORRECTION.—We were decidedly in error in stating that the Soldiers' and Sailors' Club entered Corinthian Hall on Thursday evening, during the meeting. It was the Titusville Harugari, A. D. O. H., who thus emphatically ratified the "peoples choice" for Congress and Assembly.

PERSONAL.—Dr. Rayner, of Painsville, was in town yesterday, and we print an interesting communication from him this morning. We are pleased to learn that his promised new book on the "Geology of Petroleum" will soon be forthcoming.

The Church Festival.

[Continued from first page.]

scene last evening on the occasion of the Festival of the First Presbyterian Church. The walls were hung with graceful festoons and adorned with choice pictures, and expressive mottoes, such as "Honor the Lord with thy Substance," "The Lord Loveth the Cheerful Giver," "Be not Weary with Well-doing." American flags were conspicuously displayed on every hand, their brilliant colors forming a pleasing contrast with the evergreen branches in which they were partially concealed. Upon the stage, in the midst of a bower of festive evergreens, a floral temple was erected, which was an object of special attraction. The tables presented a tempting appearance, and were profusely laden with the most delicate and substantial refreshments. The bouquets were very fresh and beautiful and arranged with exquisite taste.

The most beautiful ornament upon the tables, was a curiosity in the way of an immense glass jar filled with every variety of pickles, of every color and cut in endless fanciful shapes of ships and horses and cupids. It was presented to Haight, Archer & Co. by Archer & Bro. of New York City.

Mr. A. W. Coburn furnished his Megaletoscope, one of the few of these wonderful optical instruments in this country. Hundreds entertained themselves with the views of Italian scenes which were rendered with astonishing fidelity.

The whole affair reflects great credit upon the taste and skill of the ladies of the congregation, and the gentlemen who volunteered their aid in perfecting the arrangements for the festival.

Special acknowledgments are due to Miss Fannie Brewer of Westfield, for bouquets collected by the ladies of that place—one very elegant one was presented to the Pastor; Dr. Moody purchased one for the festival for $10; both of these last named were sold for the benefit of the church. Messrs. George & Stadall rendered great assistance, and Coleman's band kindly volunteered their services.

Since writing the above, the receipts of the evening having been reported at $550. Mr. Coburn's magnificent Stereoscope was a splendid attraction in itself, the receipts amounting to about $20. The Floral Temple was designed by C. L. Wheeler, Esq. Mrs. J. T. Briggs presided, and it was especially well patronized, the receipts for flowers and oranges alone amounting to $156 60.

The Locomotive Seizure at Rouseville—Full Particulars of the Affair.

ROUSEVILLE, PA., June 18th, 1866.

Editors Morning Herald:

In looking over the HERALD of Friday morning, I read an account of a contested seizure between Hon. C. V. Culver and the Deputy Sheriff of this county at this place.

Deputy Sheriff W. G. Blakely, seized the locomotive on a writ of replevin in favor of the New Jersey Locomotive and Machine Company, and brought it to Rouseville for safety, where he was met by the late Hon. C. V. Culver, L. H. Culver, John R. Penn and a posse of railroad employees who attempted to take the locomotive by force. Sheriff Blakely was not at all alarmed, but summoned a posse to assist him hold the locomotive, which was responded to by over two hundred citizens of Rouseville and vicinity. The contest lasted from 8 o'clock on Wednesday evening until 3 o'clock Tuesday evening. During this time, Sheriff Blakely held the locomotive to enable Culver & Co. to produce a satisfactory bond and hold the property. But as Culver's friends in this county are like Angel's visits or fiddlers in Heaven, far and few between, it was impossible for him to procure bondsmen to the amount of thirty-six thousand dollars, which amount Sheriff Blakely demanded. Hence the property was delivered to the New Jersey Locomotive and Machine Company.

L. H. Culver ordered his men to seize the property. Revolvers were drawn, but as stated before, milder counsel prevailed (two hundred men) And in a short time the ground was cleared off and the contested locomotive run on a separate track which had been ordered built by the Sheriff, where it still remains.

We are glad that O. R. Gray, high Sheriff of this county has been so fortunate in getting the services of W. G. Blakely as his Deputy, as we can safely say that he has the right man in the right place, and capable of executing any process that may be entrusted to him.

CITIZEN OF ROUSEVILLE, PA.

Reply to Producer.

Editors Morning Herald:

Allow me to reply through your columns to the communication of Producer in a recent issue in regard to the present system of selling petroleum at the wells.

No one will acknowledge but that the system is a wrong one and needs an immediate change, as the transportation of oil will soon be exclusively in tank cars. Agents for the tank car lines require forty five gallons to the barrel, and we have to account to the fund interest at the rate of forty-three gallons, hence the necessity of a speedy reform.

I would suggest that in future all sales be made by the gallon, whether to be delivered in barrels or tank cars. Let there be competent sworn gangers, either appointed by the Governor of the State, or take out licenses as the law may require, and they to furnish a certificate of contents, either of barrels or tanks, to both buyer and seller. Let his compensation be paid by the seller, as may be agreed upon.

This is the only true and correct system by which the business can be done in future, and it can be readily established by a solemn resolve of the different producing interests. Let us unite one and all. WORKING INTEREST.

A GOOD FIRE INSURANCE.—We witnessed last evening a second trial of Messrs. Stackpole & Hancox's new centrifugal pump, recently placed in the Titusville mill. The pump is worked by the water wheel of the mill, and with constant and unfailing force a horizontal stream of about 150 feet. This is a decided improvement upon the first experiment, and it is believed will do even better. The pump will prove a valuable addition to the fire appratus, as it can be used with excellent effect in any locality which the water can be forced through hose. We congratulate the mill proprietors upon so desirable an acquisition for the protection of their own property.

THE NEW BATH HOUSE OPEN.—The bathing tubs at the new saloon of Gaskill & Mathews will be opened to the public at 1 o'clock to-day. The plunge and shower baths will be completed in a few days, when the proprietors will be prepared to offer to the public a luxury seldom found outside of our large cities, excepting at the seaside.

The soft, cool water used at this establishment is pumped by steam power from the well known spring at the east end of the Moore House lot, near the creek.

The shaving saloon is also in operation and occupies the front portion of the building, while the baths are immediately in rear.

Remember the place—directly opposite the Titusville Mills.

ATMOSPHERIC PHENOMENON.—About half past eleven at night, on Tuesday, the heavens, in an easterly direction from Corry, says the *Telegraph*, for a space of 90 feet of vision in heighth, and 80 feet in width, were illuminated by a very bright light, which was visible for the space of about twenty minutes, during which time there seemed to be a shower of falling stars. The phenomenon was evidently a meteoric shower.

C. L. PHELPS, Esq., of the Girard *Spectator*, has been sued by Senator Lowry for libel. The suit is based on an extract copied into the *Spectator* from the Harrisburg *Patriot*, containing a report of Dan Rice's speech at the State Capital, in which Mr. Lowry is handled rather roughly.

At the Presbyterian church in Girard last Sunday no less than twenty-three were admitted as church members, of which number forty went through the sacred rite of baptism. At the Methodist church some sixty were received as members.

NUMEROUS, fashionable barber and hair dresser at the Crittenden House has a very cosy saloon on the first floor, adjacent to the wash-room.

The Geology of Petroleum—Its Source—Where to Find It, and the Certainty of an Unfailing Supply.

BY D. P. RAYNER, M. D., PRACTICAL GEOLOGIST.

THE RELATIONS OF THE OIL AND COAL DEPOSITS.

To account for the deposit of the Oil Measures, Geologists have drawn largely upon romance and imagination in their descriptions of the carboniferous era. That at that time the atmosphere of our globe was highly charged with carbonic acid gas and carbon vapors there can be little doubt. That upon the portions of continents then uplifted above the surging waters, which held sway over a large area of the globe, huge primeval forests of conifers, sigillaria and lepidodendrons with various species of the families of Acrogent and Gymnosperms were abundant, as the natural outgrowth of that era, there is not left a single doubt as we trace the known Geologic records of that period. This much then the study of the rocks and fossils has determined. But the theories erected to account for the deposit of the vegetable outgrowth of the conditions then existing, and their metamorphism into beds of Bituminous and Anthracite coal, might well provoke the merriment of the most conceptive novelist.

We can conceive of *boys* playing mumble-peg, but cannot understand that Nature would play at that or any similar game, and therefore cannot conceive that Nature would travel out of her way to accomplish that which could be better done without nay such labored effort. What I mean to be understood is this: According to the commonly received opinions of geologists, the submerged continent was raised above the watery waste and remained elevated until the surface was covered with a profuse growth of vegetation, which by some means was thrown down, charred and finally submerged by a subsidence of the continent, and remained in this condition until the strata of overlying rock were deposited and formed; when the continent was again elevated, all dripping from the watery depths, like a Naiad from the sea, and through another period of denudation, erosion and pulverization an alluvium was formed from which another rank growth of vegetation sprung forth, destined to undergo the same or similar changes with that of a former period by another subsidence, the covering of it with another deposit of rock material and another elevation of continent or of the central continental basin; and so on to the end of the chapter.

Now, as we have before stated, we do not believe that Nature—whose every law is perfect in itself—would travel out of her way to accomplish that which can be better accomplished without that effort. Then what appears to be the *facts* in the case? Simply that those rank productions of the virgin soil of the uplifted portions of the continent or the growth of floating *islands of vegetation were swept, by the wild* tornadoes of the Carboniferous era from the surface and submerged in the deeper portions of the central continental basin, which was followed by a deposit of rich material by which it become closely impacted and compressed while another growth of vegetation had taken the place of the former, ready to be swept like it into the deep and buried beneath another tier of rock formation similar to the former.

While these changes were going on Carbon and Hydrogen were evolved in the form of gas as centre of the earth and passing on towards the surface. Coming in contact in the central basin, with the organic deposits therein and acting readily upon them, together with the heat brought with them from the central retort and that evolved by compression, these deposits were by this means gradually converted into Bitumens or Coals.

But in those portions of the basin where but few vegetable or organic masses were deposited, and the porus sand rock took their place, the unchangeable silacious rock only served to attract, condense and retain the liquid Carbo-Hydrogens—formed from the same elements which changed the beds of organic deposit into coal—and is to day the natural resorvoir of deposit for the Petroleum.

Thus we discover that Carbon and Hydrogen condensing in beds of organic deposit under favorable conditions, present all the essentials for the formation of the coal measures; and that condensing where the conditions do not exist to affaltize and absorb those elements, yet furnishing structures presenting sufficient attractive force to retain in them the condensed product the petroleum is formed from the same materials. The distinction of the Strata then, is its division into the Coal-beds and the Oil Bearing rocks of the Carboniferous Strata, thus accounting for the deposits of both upon the same Hypothesis.

In the coal deposits of some regions, they reach to a great depth, and many alternate layers are found. In Nova Scotia for instance, the deposits of the rocks and coal veins are over 17,000 feet deep, and 72 alternate layers of coal and mud or rock-formations are found, rendering it necessary that thirty-six upheavals and subsidences should have occurred, with that number of soil formations and vegetable outgrowths, before the general and final uplift of continent. But if our theory is correct *all* this was deposited before the general uplift took place.

Now, let us ask, which view seems the most probable from the known facts with regard to the phenomena of nature's works? Let the candid reader judge.

Federal Hill, South Erie, Pa., June 22, 1866.

THE dedication of the Monument to the deceased soldiers of Venango county will take place at Franklin on the Fourth of July. The Monument is completed, and is said to be of an exceedingly chaste design.

SOMETHING WORTH KNOWING.—You can obtain railroad tickets to all parts of the east, west, north and south, over the Atlantic and Great Western, New York and Erie, New York Central, Philadelphia and Erie, and Grand Trunk Railways, at E. S. Fowler & Co.'s, No. 2 Fletcher's block, F. O. Allen's old stand.

A Great Cat-as-Trophy—SPENCER "CHAUTAUQUA"—AT HARRIS ARCADE!—The steamer is now making her regular trips between Jamestown and Mayville, on the Chautauqua Lake. Will leave Jamestown on the arrival of the Corry Accommodation train on the A. & G. W. R. R., about 10 o'clock a. m., and connect with the 5 o'clock p. m. train on Lake Shore R. R. at Westfield; which arrives at Buffalo, 8 o'clock, p. m., connecting with the New York Central R. R. Passengers going east will find this a pleasant route and make the same time as by all rail.

HILL & MURRY, Proprietors.

Through tickets to pass over this line can be bought at Titusville, Shaffer and at all important G. R. R. ticket offices as cheap as by all rail. ap16

Martha Washington Hair Restorer.

That which restores, renovates and blesses—
'Tis not a *poison* that will sell your tresses,
'Tis not a dye that sometime will impair
The wavy lustre of your glossy hair,
Extracted from nature's grand creation—
A simple vegetable preparation,
Where nature and wherever nature combine
To make it what it is—almost divine,
A wonderous panacea, which in truth
Restores the fading lustre of your youth
A [illegible] thoughts around you stand
A [illegible] waves his silver wand,
One consolation with your life is won—
That consolation lies in "MARTHA WASHINGTON".

This Hair Restorer is sold wholesale and retail by H. C. CLARK & CO., No. 64 West Spring street. ap16

AGENTS WANTED.

AT J. T. HEADLEY'S

HISTORY OF THE WAR

NOW READY.

Complete in Two Volumes, also in One. It is admitted to be the most Interesting, Popular and Valuable History of the Rebellion, which is fully attested by the enormous sale of Two Hundred Thousand volumes, and a large portion of the country still unexamined.

We are obliged to run our presses night and day to enable us to supply our agents.

Men of character and ability, who desire a lucrative employment, will find this a rare opportun

Fourth of July.

CELEBRATION—PRIZE CONCERT—DISTRIBUTION OF VALUABLE GIFTS—A NOVEL FOURTH OF JULY ENTERTAINMENT.—Mr. E. H. Crittenden, the enterprising and popular proprietor of the Crittenden House, announces in this morning's HERALD, an entertainment for the Fourth of July, in the form of a mammoth Prize Concert. The novelty of the attraction consists in the distribution among the audience of upward of seven thousand and ninety valuable gifts, amounting in the aggregate to $40,700—the road prize being the large two story building standing from Spring to Diamond street, valued at $[illegible]. The lot is 94 feet front by 140 feet deep. The building combines both store and dwelling, the former fronting on Spring street and having a spacious door yard, ornamented with trees and shrubbery; the store on Diamond street, adjacent to the Crittenden House, and constituting one of the most advantageous and valuable business localities in the city. The prize list also includes a one-sixteenth working interest in well 108, Rooker farm, a valuable building lot, and gold watches, twenty-five double cased silver watches, and the entire stock of wines, liquors, cigars, glassware, and furniture of both store and dwelling above described. A complete list of the prizes will be found in another column. There will be four thousand and seventy tickets, and *two thousand and ninety prizes*, or a prize to every other ticket holder. Every ticket holder will be registered, and every ticket numbered in duplicate. The distribution will be in charge of a committee of disinterested citizens, to be selected by the audience at the time and place designated.

We have never before commended enterprises of this nature, from the fact that they are too often undertaken for purely speculative purposes, and managed by unprincipled parties who impose on public credulity. In this instance the facts are quite the reverse. Mr. Crittenden's references are Messrs. F. W. Ames, J. T. Chase, R. D. Fletcher, J. T. Briggs, C. C. Dudfield, and W. W. Kingsland, gentlemen who are prominently known throughout the oil region. We have carefully examined the schedule and are confident there is nothing fictious or unreal about it. It is a matter of fact sale of unencumbered property at par value, by an extensive plan of distribution among ticket holders to an unexceptionable entertainment, and does not in any manner conflict with the common or statutory law.

Our citizens generally understand Mr. Crittenden's object in this matter. He has built and furnished at an enormous cost the largest and best hotel in the oil region. In giving it his exclusive personal attention, and devoting his entire capital to its success, it necessitates the suspension of his former business and the disposal of all other property. Every person interested in the reputation and prosperity of Titusville should appreciate the necessity of sustaining an enterprise of this character. The price of tickets is fixed at $10 each. More than half the ticket holders will receive gifts, and some of them will have abundant cause for rejoicing.

TRANSPORTATION.

CHANGE OF TIME. MAY 14, 1866

WINTER ARRANGEMENT.

EMPIRE LINE.

THE EMPIRE TRANSPORTATION COMPANY

Now offers to the business community a RELIABLE FAST FREIGHT LINE between the EAST and the WEST, and the

GREAT OIL REGION OF PENNSYLVANIA.

It owns and controls all the cars of its Line, which are new, and built expressly for its trade, and furnished with BROAD TREAD WHEELS, which enable it to run through irrespective of change of gauge, thus avoiding the injurious delays previous at transshipping points.

The Line is managed by men of long experience in the business, and no effort will be spared on their part to render satisfaction to its patrons.

Parties ordering goods from the East will please direct Shippers to Mark Packages, "EMPIRE LINE," and refer them to the Agents of the Company for shipping directions, &c.

☞ Particular attention given to forwarding OIL to New York, Philadelphia and Baltimore.

For rates of freight, shipping directions, &c., apply to our Agents in the different Eastern and Western cities.

J. K. McLAUGHLIN, Agent, Titusville, Pa.
ROBT. W. SMITH, Eastern Superintendent, Williamsport, Pa.
JNO. J. HOUSTON, General Freight Agent, Philadelphia. ln98

ALL THE OIL—NO ROYALTY.

GREAT INDUCEMENTS TO PARTIES WHO WANT TO BORE FOR OIL!

The undersigned has inaugurated a new system in the oil regions of Pennsylvania. He offers the following inducements, so that almost any person who has industry and perseverance, can go on the land and bore for a flowing oil well.

1st. No Royalty! The oil to belong exclusively to the party putting down the well.

2d. All the wood wanted for fuel for drilling and testing, free of expense.

3d. Timber for Derricks and Engine Houses also without charge.

4th. When the well is down and fully tested, the party shall have the privilege of purchasing from one-half to five acres in fee simple, upon which the well is located, at a nominal figure. The price to be agreed upon when the contract is made for going on the land.

The undersigned has expended thousands of dollars during the last six months, in exploring the Oil Fields of Pennsylvania, and during that time has selected over ten thousand acres of beautiful Oil Territory. It has been selected with great care, and most of it is situated in the midst of territory already developed, and where oil is now obtained in large quantities.

HENRY McKENTY,
Dealer in Oil Lands, Oil Interests and Western Lands
Pithole City, Venango Co. Pa. Office 107 Holmden street, opposite the Post Office.

WESTERN LANDS.

20,000 Acres of Western Lands for sale for Cash or will be exchanged for Oil Lands, Oil Interests, Producing Wells, and Wells going down, also for Engines, Well Rigs, &c., and Houses and Lots.

These lands were selected with great care, with wood, prairie and water, and many of them located on railroad lines.

HENRY McKENTY,
Dealer in Oil Lands, Oil Interests, and Western Lands, Pithole City, Venango Co., Pa.
Office 107 Holmden street, opposite the Post Office.

WANTED.

$100,000 of Oil City, Venango County, Crawford County and Petroleum Bank Bills in exchange for Oil Lands and Western Lands.

These Oil Lands are located in Districts that are already developed. Many of these Western Lands are along lines of railroads

HENRY McKENTY,
Dealer in Oil Lands, Oil Interests, and Western Lands, Pithole City, Venango Co., Pa.
Office 107 Holmden street, opposite the Post Office.

LOTS IN THE CITY OF SUPERIOR.

500 Lots in the City of Superior for sale for cash or will be exchanged for other property.

The City of Superior is at the West end of Lake Superior; it is destined at no distant day to be a second Chicago. It is the terminus of the North Pacific Railroad, now being commenced with a land grant of some 15,000 acres to the mile also the terminus of the Mississippi and Lake Superior Railroad, which is being pushed forward rapidly, and will be completed in two years or less; this Road has also a land grant from the United States Government, and the State of Minnesota of about 21,000 acres to the mile.

HENRY McKENTY,
Dealer in Oil Lands, Oil Interests, and Western Lands, Pithole City, Venango Co., Pa.
Office, 107 Holmden street, opposite the Post Office.
